White Chocolate Apricot-Hazelnut Truffles

(makes 28 truffles)

Ingredients:

1 1/4 C hazelnuts (aka filberts)
1/4 C finely chopped dried apricots
24 ounces imported white chocolate
6 Tbl heavy cream

Instructions:

On a baking sheet, spread out 1 1/4 C hazelnuts. Bake at 350 F for 10 minutes, or until nuts are light brown and the dark skins are

cracked.

Remove as much of the skins as possible by rubbing nuts in a terry-cloth towel. Finely chop nuts in a food processor.

In a 1-quart glass container, combine 12 ounces imported white chocolate, cut up and 6 Tbl heavy cream.

[Note: I used the Nestle white chocolate chips that are available in my local supermarket. It worked well, but I am sure it would be better if you use a good import instead.]

Microwave mixture on MEDIUM (70% power), 3 to 4 minutes, stirring twice, until chocolate is melted and smooth. [You can do this step in a double-boiler if you don't have a microwave.]

Stir into melted chocolate 3/4 C of the chopped nuts and 1/4 C finely chopped dried apricots.

Cover the mixture and refrigerate 1 to 2 hours, or until mixture is firm enough to hold its shape. (If mixture gets too hard, let stand at room temperature for 30 minutes or so, until firm but soft enough to shape.)

Form 28 smooth 1 1/4-inch diameter balls, either by using a 1 1/4-inch automatic-release ice cream scoop, or by rolling 1 Tbl of the mixture between your (clean!) hands.

Place on a wax paper-lined cookie sheet and refrigerate until firm, 1 hour or longer.

Form teaspoonfuls into balls; roll in cocoa and shake off excess. Makes 1 pound (about 2 dozen). About 75 calories each.

Cognac Truffles

Ingredients:

3 1 oz square of unsweetened chocolate

1 1/4 c confectioners' sugar

1/3 c butter

3 egg yolks (I use the whites to make macaroons or meringue cookies)

1 tsp vanilla or 2 TBSP of cognac

Instructions:

Melt chocolate. Combine sugar and butter in bowl. Cream together. Add egg yolks, 1 at a time. Stir in melted chocolate and flavoring. Chill mixture. Break off pieces and form into balls. Roll in coating.

Air-dry 1 hour. Store in air-tight container in very cool place.

Makes

about fifty truffles.

Suggested coatings: ground almonds or other nuts, cocoa, more melted chocolate, confectioners' sugar, coconut, chocolate or colored jimmies.

Note that this uses raw egg yolks. I find a melon baller to be very handy in forming the truffles.

Chocolate Anise Truffles

Ingredients:

1/4 cup Anise liquor

1/2 cup butter

12 oz. semi-sweet chocolate

2 cups pulverized anisette cookies

Instructions:

In a double boiler melt the chocolate, constantly stirring with a wooden spoon. When the chocolate has melted, add the butter and slowly stir it into the chocolate as it melts. Continue to stir for another minute until it is well mixed and smooth. Add in the Rum and stir until well mixed, then sprinkle in the pulverized anisette cookies (a little at a time, as sometimes it takes less) until the mixture is slightly thickened but still smooth. You want the mixture to remain as a thick sauce at this point.

When you have thoroughly mixed in the anisettes, rest the top of your double boiler in a bucket of ice and WHISK the truffle mixture slowly until it has cooled (about 15 minutes). Do not stop whisking or the butter and rum will separate out of the chocolate-anisette. When the sauce is completely cooled it should have a soft but solid consistency which you can then spoon out and form into truffles and coat with chocolate powder or confectioners sugar.

Place Styrofoam on a flat surface. Lightly coat baking sheet with cooking spray. Remove stems from apples. Insert wooden stick into stem of each apple. Place caramels in saucepan. Add the water, heat stirring until caramels are melted. Working quickly with one apple at a time, and keeping caramel over low heat, dip the apple into the caramel, turning to coat the apple, remove the apple from the caramel and gently shake. Pat pistachios onto top of apple, place on prepared sheet. Refrigerate until caramel is cool. Heat chocolate in top of double boiler, until melted. Drizzle chocolate over apples. Press apples sticks into Styrofoam. Refrigerate until the chocolate hardens. Remove from Styrofoam to foil cupcake liners

Chocolate Cake In A Jar

1 stick plus 3 T. butter or margarine
3 c. white sugar
4 eggs
1 T. vanilla
2 c. applesauce, unsweetened
3 c. white flour
3/4 c. unsweetened cocoa powder
1 tsp. baking soda
1/2 tsp. baking powder
1/8 tsp. salt

Prewash 8 pint-sized wide mouth canning jars (be sure to use the kind that have no shoulders) in hot, soapy water. Rinse well, dry and let them come to room temperature. Grease insides of jar well with butter.

Beat together butter, and half of sugar until fluffy. Add eggs and remaining sugar, vanilla and applesauce.

Sift dry ingredients together, and add to the applesauce mixture a little at a time. Beat well after each addition.

Pour 1 c. of batter into each jar, and carefully remove any batter

from the rims.

Place jars in a preheated 325 oven, and bake for 40 mins.

While cakes are baking, bring a saucepan of water to a boil, and carefully add jar lids. Remove pan from heat, and keep lids hot until ready to use.

When the cakes have finished baking, remove jars from oven. Make sure jar rims are clean. (If they're not, jars will not seal correctly)

Place lids on jars, and screw rings on tightly.

Jars will seal as they cool.

Cakes will slide right out when ready to serve.

Eat within 1 month.

White Chocolate Pretzels

1 pkg. long pretzel rods

1 pkg. almond bark, or vanilla candy coating

Decorations, such as red and green sprinkles, holiday M&Ms or crushed

up candy canes

Place the candy coating in a microwave-safe bowl. Make sure you do not get any water in the bowl. Any water at all will cause the candy coating not to melt properly and separate.

Microwave the candy coating for 1 min., then stir and microwave an additional min., until it is completely melted and smooth.

Stick a pretzel rod into the chocolate, and with a spoon, cover about 3/4 of the pretzel with chocolate. Let the excess drip back into the bowl.

Sprinkle the chocolate with either red and green colored sprinkles, crushed up peppermints, or stick red and green M&Ms to the chocolate.

Place the decorated pretzel on a piece of waxed paper or aluminum foil, and let it dry completely, about 1 hr. Gently pull the pretzels off the paper.

25.) Pretzel Bouquet

Lay about 10 White Chocolate Pretzels on a sheet of red or green tissue paper.

Wrap the pretzels up like a bouquet of roses would be wrapped, and tie red, green and white curling ribbon around the middle to secure.

With scissors, curl the ribbon, then tie on a small gift card.

26.) Pretzels In A Glass

Find a tall glass, such as a parfait glass, or one of those neat glasses mixed drinks are served in.

Pour some holiday candies, such as M&Ms or hard mints, in the bottom of the glass. Put as many pretzels as you can in the glass sitting on the candies, but leave a little room for them to move around, so they don't break when they are pulled out.

Cover the top of the glass with a piece of colored plastic wrap, or you can cut a piece of holiday fabric, and double the width of the top with pinking shears to cover.

Tie a pretty ribbon around the glass to secure, and you have a neat gift for someone special!

1/2 cup light corn syrup

1/4 cup butter, softened

1 teaspoon vanilla

1/4 teaspoon salt

3 cups powdered sugar

4 drops yellow food coloring

2 drops red food coloring

1 bag milk chocolate chips (12 ounces)

2 tablespoons vegetable shortening

- 1) Combine the corn syrup, butter, vanilla, and salt in a large bowl. Beat well with an electric mixer until smooth.
- 2) Add powdered sugar, one cup at a time, mixing by hand after each addition. Mix well until creamy.
- 3) Remove about 1/3 of the mixture, and place it in a small bowl. Add the food colorings, and stir well.
- 4) Cover both mixtures, and refrigerate for at least 2 hours, or until firm.
- 5) When mixtures are firm, roll a small, marble-sized ball from the orange filling, and wrap a portion of the white filling (approx. twice the size) around it. Repeat process with the remaining filling ingredients, then refrigerate these "eggs" for 3-4 hours, or until firm.
- 6) Combine the milk chocolate chips with the shortening in a glass or ceramic bowl. Microwave chocolate on HIGH for 1 minute, then stir, and microwave again for 1 minute more; stir.
- 7) Use a fork to dip each center into the chocolate; tap the fork lightly on the side of the bowl, then place each candy onto waxed paper. Chill.
- 8) after 1-2 hours of chilling, dip each candy once more, and chill for several hours, or until completely firm.

In a medium bowl, combine the oats, flour, almonds, salt, cinnamon and chocolate chips.

Combine the eggs and maple syrup in a small bowl and whisk until very well combined. Pour into the oat mixture and combine well. About halfway through the mixing it will become much easier if you use your hands.

Scoop half of the dough into the bottom of a 9-inch glass pie dish and smooth it out, going up the side a little bit, to make a smooth layer. If the dough is too sticky to work with, wet your hands and use them to press it in.

Spread the jam evenly over the dough in the pie dish. Then use your hands to very gently distribute the remaining dough over the the jam. In some places the jam might squish up over the top of this new layer of dough, but that is OK.

Microcook, uncovered, at full power (100%) until the dough feels dry to the touch, about 5 minutes. The raspberry jam will be bubbly and very runny, but let it cool completely before cutting into bars and it will be fine.

1/8 c Sugar
2 lb Cream cheese; softened
2 1/2 c Sugar
4 Eggs
1 1/2 lb Semi-sweet chocolate
20 dr Raspberry candy concentrate;
9 In spring-form pan

Pre-heat the oven to 375 degrees.

For the crust: Lightly spray the spring-form pan with a non-stick spray such as PAM. Mix graham crackers and sugar in a bowl and dust the pan.

For the filling: Soften the cream cheese by microwaving in a bowl approx. 30 seconds for every half-pound (2 - 2 1/2 minutes). Add two eggs and mix with an electric mixer until well incorporated. Slowly add the sugar; about 1/2 cup at a time until incorporated. Add the remaining two eggs and mix until there are no more lumps and the batter is smooth (about three minutes).

In a separate container melt the chocolate. This could be done in the microwave. I prefer to melt it over the stove. The later method requires a little more attention to the chocolate. Do not scorch the bottom. Not only will the chocolate taste bitter but it's not fun trying to clean.

Add melted chocolate to the batter. Mix on high. While mixing, add the candy concentrate with an eye-dropper. Experiment with this step. The more concentrate you add, the stronger the flavor. You don't want too much, though. I have made cheesecake that tasted like cough syrup. So, don't over-do-it.

Pour the mixture in the spring-form pan and bake until the center is set (The top of the cheesecake will be glossy while baking. When the luster of the center begins to dull, it is ready.) The cheesecake may still be "jiggly" (like jell-o).

Add eggs, one at a time, mixing well after each addition. Stir in sour cream, melted chocolate, cocoa, and vanilla, mix well. Gently fold in whipped cream; spoon into prepared pan. 1/2 lb White chocolate; cut into small pieces
1/2 c Packed, fresh mint leaves (green or white)
1/4 c Heavy cream
2 tb Creme de menthe
6 tb Unsalted butter; cut into small pieces

To make the truffles: Melt the chocolate in a large heatproof bowl set over gently simmering water. When chocolate is almost melted, turn off the heat and let stand until completely melted, stirring occasionally.

Meanwhile, in a small saucepan, steep mint leaves in cream and creme de menthe until liquid is very flavorful (amount of time depends upon the strength of the mint leaves). Then bring just to a simmer, strain, pressing down on the mint leaves to give as much flavor as possible, and whisk into the melted chocolate. Place the pieces of butter around the warm mixture and let the butter melt. When melted, stir to mix well. Pour mixture into a shallow pan, giving you a 1-inch-thick layer of chocolate. Cool completely and

then refrigerate or freeze until very firm.

To form the truffles: Have a small bowl of very hot water ready and replace the water as it cools down. Line a baking tray with parchment paper. Remove truffle base from the refrigerator or freezer. Before scooping out a ball of chocolate, dip the melon baller into the hot water, shaking to remove any excess water. Scoop out a truffle, tapping the melon baller on a firm surface to release the truffle. Quickly roll between the palms of your hands and place on the prepared baking tray. You will have to wash your hands in cold water often to prevent the chocolate from sticking to your hands. Repeat this procedure until all the balls have been scooped and rolled. If the truffle base begins to soften too much, refrigerate or freeze until firm and then continue to scoop out the truffles. Refrigerate or freeze until needed. Makes 45 to 50 small truffles.
